

# Santa's screen wash

On Christmas Eve, Santa covers 510,000,000 km

He carries 840,000 tonnes of toys (which is a lot for poor Rudolph!)

Santa needs screen wash to complete his long journey safely

One in five cases of Legionnaire's Disease are caused by drivers not using anti-bacterial screen wash, so Santa needs to use the right product

By using one tablet of screen wash, rather than a bottle of liquid screen wash, Santa's sleigh could weigh **four times less** (which means more space for toys!)

NCH Screen Clean **doesn't contain alcohol**, meaning it won't damage seals and wipers (and there's more left over for Santa!)

So if you travel as much as Santa, ask for **NCH Screen Clean** tablets in your stocking this Christmas
